Spring Forward Clock

Make a spring clock, teach your kids how to tell time on their own clock.

Supplies required:

- Paper plate
- Paint
- Foam sheet
- Pipe cleaner
- Pony Beads or macaroni
- Hole punch

Paint your paper plate for your background. Let dry or use hair dryer to speed up the process.

Punch holes at the top of your plate for your hanger.

Glue on foam numbers or use thick markers.

Poke a hole with a pen in center of your plate for your clock arms. Cut out arms out of foam or construction paper, poke holes in ends with your hole punch.

Take a 2" pc of pipe cleaner and fold in half. Twist the top loop to hold the arms, put through the hole in plate and open up ends of pipe cleaner.

Use a pipe cleaner to bead your handle use pony beads or macaroni. Twist ends of pipe cleaner through your plate holes.
